

## Team Texting - How to add and verify your SMS/cell number

Communication via text is critical to our ability to stay in contact with our athletes and their families. This is particularly important for certain notifications, like practice/weather alerts and last-minute important practice/class information. To add a cell number for text messages please follow the steps below:

1. Sign In to your account on the WRA website.
2. In the side menu, click **My Account > My Account**.

4. Add your cell phone number to the "Mobile/SMS" field and select your carrier service even if you already have your cell phone listed in the "phone" field.

<b>SMS:</b>	<input type="text" value="Unverified"/>	<b>Carrier:</b>	<input type="text" value="Verizon"/>
<input type="text" value="541-555-1212"/>			

6. Click **Save** in the upper right and it will send that number a verification text.
7. Check your cell phone for a "Verify your SMS" text from "notifications+fleve@gomotionapp.com" and open it. Note that some cell carriers can take a little while to deliver the message.

8. Tap the link and you should see one of three possible messages.
  - a. "Success! We have validated your primary SMS." (or "secondary SMS" if that's what you were verifying) The SMS number is verified and ready to receive texts from the team. You may skip the rest of the steps.
  - b. "Sorry, your primary SMS has already been validated." Sometimes just opening the text will verify the number, resulting in this message. The SMS number is verified and ready to receive texts from the team. You may skip the rest of the steps.
  - c. "Sorry, the code XXXX did not match any codes." Continue to the next step.
  - d. If tapping the link doesn't work, note the four digit code number in the text message.
9. Back in your account on the WRA website, click the **Unverified** button above the SMS number.

SMS: **Unverified** Carrier:

541-555-1212

---

Enter the verification number into the field below and click "Verify" to verify this phone number.

**Verification Code:**

**Resend Verification**

**Verify**

**Cancel**

10. If you got the error in step 8c on your mobile device, click **Resend Verification** and go back to step 6.
11. Otherwise, enter the four digit code from your text message in the *Verification Code* field and click **Verify**.
12. You will see *Verified* in green above the SMS number. You may need to refresh the screen to see this.

SMS: **Verified**
